BACKGROUND: The MABRA board is a small number of volunteers that have to manage a large and active racing region. Their service is largely thankless, despite being necessary to the success of the entire region. In recent years, it has been difficult to find volunteers to serve on the board. There have been occasional vacancies and board members may feel compelled to continue serving because there are no other volunteers in the wings to take on their tasks.

PROPOSAL (details of desired action): As an incentive to get more interest in the board, particularly among active racers, NCVC proposes that MABRA board members receive similar treatment as BAR winners and only pay the USAC insurance of $2 at any race they wish to participate in.

Currently there are no incentives to serve on the board. This one would have little impact on the bottom line at events, and serve as a way to say thank you for the service given to the entire community.

• IMPLEMENTATION & MANAGEMENT

Promoters will have to manage this at individual events, but it presents no more burden than exists for BAR and event champions.

• PARTICIPATION

It is our hope that this will spur more interest in MABRA service.
